ReCRM
Product of Re Nutech Solutions

Turn every ad click into a closed deal

Renutech CRM captures leads from Meta Ads and your website, organises them on a Kanban board, reminds your team to follow up, and sends results back to your ad platforms.

WHY TEAMS LOSE LEADS

Scattered leads
Meta forms, website enquiries, WhatsApp and sheets, with no single view.

Missed follow-ups
Slow callbacks cost conversions, and nothing reminds the team.

No ad visibility
Ads see clicks, not closed deals, so budget goes to the wrong campaigns.
